

An Outstanding Challenge

For the College Bound and Life Long Learners

Presented by the Booth & Dimock Memorial Library Teen Zone

How it Works

1. Sign Up Online at www.CoventryPL.org/Teen-Zone or at the Teen Services Desk
2. Pick up a Reading Challenge Packet or download one on our website.
3. Read as many books as you can from the *Outstanding Books for the College Bound and Life Long Learners* list provided by the Young Adult Library Services Association.
4. Visit the Teen Services Desk for a Special Prize for every 5 books.

Those books not owned by the Booth & Dimock Memorial Library can be requested through Inter-Library Loan.

List Provided by the Young Adult Library Services Association

The books on this list illuminate and explore the worlds and lives around us and those far away, where we have come from and where we may be going. Use these books to broaden your horizons and deepen your understandings, whether you are preparing for college or looking to expand your learning in other ways. Choose a list that covers an area you know little about, or choose a title from your favorite subject—either way you will find something to challenge and to inspire.

Following the lead of the previous twenty-first century lists, the 2014 list is designed to mirror academic disciplines. It is divided into five categories: Arts and Humanities, History and Cultures, Literature and Languages, Science and Technology, and Social Sciences. It is a combination of fiction, nonfiction, and poetry. Titles were selected based on criteria including readability, racial and cultural diversity, balance of viewpoints, variety of formats and genres, and title availability. The committee did not seek to define, or redefine the Canon, but to instead offer new ideas and lenses, to open up new areas to explore and learn.

A YALSA committee of public and secondary school librarians selected the 2014 list in collaboration with academic librarians from the Association of College and Research Libraries (ACRL). Revised every five years, this list is intended as a tool for several audiences: students preparing for college, parents, educators, and librarians.
